### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney on 03/22/2007.

The application has been amended as follows:

#### ***Election/Restrictions***

Ammended claims 18-20 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The process of loading and the specific container would not be required by the inventions of claims 1 and 11 originally claimed and treated.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 18-20 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

This application is in condition for allowance except for the presence of claims 18-20 are directed to an invention non-elected without traverse. Accordingly, claims 18-20 been cancelled.

#### ***Allowable Subject Matter***

Claims 1-15 and 17 are allowed over the present prior art.

The following is an examiner's statement of reasons for allowance: automatically transferring/unloading of a plurality of articles between the internal storage racks and the article transport in combination with the remainder of the claim language is not anticipated or fairly taught by the present prior art..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
